 Mr. Laud R. Pitt, ONI
 Lt. Col. K. R. Duncan, AFCIN
 Maj. S. J. Moran, AFCIN

50X1

50X1

Mr. F. A. Voigt, CIA

Requirements for TALENT-KEYHOLE Photography:

1. Any satellite photography in the immediate future should be planned on the basis of POLYARNYY URAL as a highest priority target from which planning should stem. If the operational plan is for a one day orbit, it is recommended that the camera be left on for coverage of all of the Eurasian land mass and the Antarctic, the latter not to be included if it jeopardizes the former. If a two day orbit is involved it is recommended that the camera be left on only over the USSR and the European Satellites for both days, the end of each pass to include overlapping the southern boundries of the USSR.

[Redacted] 50X1

Release of [Redacted]

50X1

2. The COMOR agreed to authorize the release of [Redacted] 50X1
information from the TALENT-KEYHOLE security system under the pro-
cedures already established in the Sanitization Manual (Ref: [Redacted] 50X1
Annex B, paragraphs 3 and 5). [Redacted] information as far east as 55° 50X1
may be released under the same procedures from the TALENT and
TALENT-KEYHOLE systems to NATO.
